

Medical Release Form

Dear Doctor,

Your patient has contacted me requesting attendance in our colon hydrotherapy program. This is a simple, gentle procedure with warm, purified water infused into the rectum via disposable tubing. Our instrument is FDA cleared and we use hospital-grade disposable tubing and disinfectant

In order to provide this service, it is necessary for him/her to have a complete physical to rule out any contraindications. Please screen this person for colon hydrotherapy based on the list of contraindications below. We usually suggest a series of three sessions as a beginning protocol. I will gladly collaborate with you about further sessions based on outcome. ***Please provide me with a list of all prescription medications/supplements your patient is taking at this time and the conditions they treat.***
